

Project Concept and Design/Data Analysis Slide submission(5%)

[FIT3161 - FIT3162 - MUM S1 2024](#) / Project Concept and Design/Data Analysis Slide submission(5%)

Information

Teaching for the unit has now been completed. Learning Captures are no longer available. The Lectures and Unit Coordinators will no longer be accessing or monitoring this site. This Moodle site will remain available to you as resource until you have completed your studies at Monash. Please note the materials presented here were accurate as of time of Teaching and may be superseded at any time.

✓ **DONE: MAKE A SUBMISSION**

Due: Friday, 17 May 2024, 11:55 PM

Generative AI tools can be used for all assessments in this unit

In this unit, you can use generative artificial intelligence (AI) to assist you in any way. Any use of generative AI must be appropriately acknowledged (see [Learn HQ](#))

This is a team-based submission

Presentations will take place in weeks 10 and 11 during Seminar and Studio sessions.

Slide submission: Submit presentation slides only. Slides can be uploaded prior to the presentation day or can be done after your presentation session is complete. Note if you have Google slides, you cannot provide a Google link. You need to download the Google presentation file and upload on the submission link. This is because presentation files need to be archived as per University policy. If you provide a link only, only the link will be archived, and not the actual presentation file.

Submission status

Group	MDS02
Attempt number	This is attempt 1.
Submission status	Submitted for grading

Grading status	Graded
Time remaining	Assignment was submitted 6 hours 38 mins early
Last modified	Friday, 17 May 2024, 5:16 PM

Feedback comments	<div>— INDIVIDUAL COMMENTS (1) A good presentation but perhaps a little to non-stop? Its a minor issue but do take moments to pause and take a breath to allow listeners time to digest what you are presenting. It is also preferable that a presenter does not walk in front of their presentation content. (2) clear voice, standing position can improve by not blocking the screen, good hand gestures, good eye contact and knows content well TEAM COMMENTS (1) Good intro, team is well coordinated and supportive of each other , content is well structured and easy to follow, nice visuals and demo, team finished presentation 2 min 14 seconds early, time can be better utilised to take advantage of extra time, QnA answered well by one team member. (2) Good team work and presentation effort shown here. Handover between presenters are handled well however time allotted was now fully utilised. Q&A is handled well however everyone should contribute in answering questions when possible.</div>
