

Guideline for Lab Assessment (Physical interview)

The lab assessment will start from week 2, and we will select 10 best marks out of 11 labs to be included in the continuous assessment marks. Before attending the interview session, please make sure the followings:

- 1) Android studio is installed in your PC and ready for app development.
- 2) Open Slido.com or install Slido app in your mobile phone.

Lab Instructions:

- 1) First, the tutor will **show the extra tasks** (new set of tasks compared to the lab tasks) for that week to the students, students must implement it on the spot.
- 2) Tutor will explain the extra task and answer students' questions in the **first 20 minutes**. The tutor will then share the Slido code for student to enter the Slido session to queue for interview.

- 3) If the students have completed the extra tasks, he/she can request for interview by key in their **name and ID** into the Slido, so that we know the order. Tutor or TA will call the student for interview.

- 4) The interview is based on the First-Come-First-Serve basis, the students requested for interview will be called by the tutor to come forward to the tutor's table. During the interview, the student has 3 minutes to demonstrate their lab tasks & extra tasks. 2 minutes for the tutor or TA to ask some relevant questions.
- 5) The mark will be given base on the completeness of the lab tasks and the confidence of the student when answering the questions.
- 6) The student may leave the lab after the interview is done.
