NOTE 1
A maximum claim of 30 hours is permitted to be made by a single student for a specific assessment task. Claims above this level will be capped. It remains up to the group members to fairly allocate workload so that no student is expected to conduct an unreasonable or imbalanced amount of work on a task. The Chief Examiner may adjust the claimed workload allocation for a submission in accordance with the expected time to achieve a particular grade, and allocate grades using the adjustment criteria in keeping with these workloads.

NOTE 2
All team members must complete the contribution matrix correctly. A student who fails to correctly complete their individual entry may incur a 10% penalty. By submitting this document, each student in the team agrees that to the best of their knowledge it is an accurate and true reflection of their understanding of the work contributed by themselves and their team members.

** **Focussed hours** refer to hours spent outside of class time working diligently and without distraction on your project. Focussed hours of work may be conducted individually, or with your team. Hence they may include team meetings outside of class.
